## Summary

I am a full-stack developer with a solid understanding of web development and a passion for learning new technologies. Through my personal projects, I have gained practical experience in software development and problem-solving. I am seeking an opportunity to apply my skills in a collaborative environment, further expanding my knowledge and contributing to meaningful projects.

## Experience

### June – July 2025 Software Engineering Intern at MYCRO :

- Worked on Microsoft SQL Database Systems
- Created Website Application on Microsoft Visual Studio 2022 for physiotherapy appointment application at ASP.NET CORE 6.0

### September 15 – January 12 Software Engineering Intern at DataBoss :

- Developing a local Speech-to-Text application for Android devices using Android Studio, without relying on Google tools.

### Best Application reward at VCally Startup Studio for Senior Project CustomERP Co-Founder:

- An AI-driven assembly engine that turns a business description into a runnable, custom ERP.
